TelSoc AGM and Lunchtime Lecture - presented by Dr Paul Brooks

[Dr Paul Brooks](#) [2]

Tue, 27 Nov 2018 - 11:30am AEDT

Dr Paul Brooks

Dr Paul Brooks is the Chairman of Internet Australia, the local chapter of the global Internet Society, an active participant within the Australian ISP community, and a network designer and engineer for more than 20 years. Sometimes described as a "Serial CTO", Paul's expertise in local and international scale network design, planning and operation is derived from extensive hands-on experience in broadband access and large-scale data networking. His practical and pragmatic knowledge of communications protocols, leading equipment suppliers, carriers & service providers and the Australian regulatory environment has been forged through consulting projects and executive positions in carriers large and small. Combining deep industry expertise with plain speaking, Paul bridges across technical, regulatory and policy fields, and helps educate all sides to understand the position of others. Career highlights include CTO roles at TransACT Communications in Canberra and a number of other carriers and start-ups including as Head of APAC Engineering for Global One, and GM Networks & Technology for Trident Subsea Cable.
