Peter Hormann

Peter Hormann Peter is an Honorary Research Fellow in the Centre for Energy-Efficient Telecommunications ([CEET](#) [7]) at the University of Melbourne. He has previously been an engineer at Telstra for almost 25 years including Telstra Research Laboratories (TRL), REACH (based in the USA), Telstra International (based in Hong Kong), and Telstra's Network/IT Engineering and Architecture organisations.

For more information about Peter's presentation see the included slidepack (on this page) and the related ajTDE article "[Data Storage Energy Efficiency in the Zettabyte Era](#) [8]" published in October 2014.
