#### **NBN Co launches Sky Muster Plus satellite 'unmetered data' wholesale service**

NBN Co has launched its Sky Muster Plus wholesale service which allows homes and small businesses in the NBN satellite footprint to access unmetered data for essential online activities.

#### **IPSTAR Broadband offers 'unmetered' data to regional Internet users**

Australian-operated, Thai-owned rural and regional satellite internet service provider IPSTAR Broadband is offering unmetered and non-speed-restricted data to Internet users in regional Australia - via Skymuster satellite - for essential services including emails, general browsing and social media.

#### **Huawei sounds warning to US and Google with launch of open source HarmonyOS**

Huawei Technologies would prefer to keep using Android in its smartphones but with the launch yesterday of HarmonyOS its own open source cross platform operating system, the Chinese telecoms giant has signalled that it is not prepared to take US sanctions against the company lying down.

## Proposed changes to mobile roaming services regulation expected for 2020: ACMA

Proposed changes to the regulation of international mobile roaming (IMR) services will come into effect in the Australian telecoms sector in January next year under draft changes put forward by the telecommunications regulator, the Australian Communications and Media Authority (ACMA).

## ACMA issues compliance reminder to telcos

Telcommunications service providers have just until the start of September to provide information on their compliance with the revised Telecommunications Consumer Protections Code (TCP Code) to the telecommunications regulator, ACMA.
