### Industry to Classroom

Tuesday, 26th March 2013

[1]

★ 76 [2]

This event is fully booked or has passed.

---

Industry To Classroom is a volunteer based community organisation of engineering industry professionals who are out to inspire Year 9 & 10 students into taking on the challenges offered to them by Maths & Science. They do this by creating a presentation structure for the student to relate the science concepts that they will already familiar to real word engineering solutions.

In 2012, Industry To Classroom delivered presentations to almost 1,500 Victorian school students and this year their target is 3,000. In this presentation, Sriyuth provides an overview of what Industry To Classroom is, how it came about, how it is delivered and how you and your staff can participate in inspiring the youth about where the sciences and maths can lead them.

To get involved: <http://www.industrytoclassroom.org/> [3]

#### Date and Time

Tue, 26 Mar 2013

12:30 - 14:00 AEDT

#### Location

---

## Presenter(s)

### Srijuth Wimalajeewa

Srijuth Wimalajeewa is the Founder of Industry to Classroom, and Senior Solution Architect, Alcatel Lucent.

Srijuth has been working in the Telecommunication Industry for over 20 years starting in hardware design then moving into embedded and systems software design. More recently Srijuth has been involved in Solution Architecture of Service and Network Operational Support Systems (OSS) as well as Small Cell based Network Solutions
