Australian Software Defined Network Meetup

Tuesday, 26th July 2016

This is a FREE public event - registration is via Meet-up

[1]

☆ 129²¹

This event is fully booked or has passed.

Presentation about the RMIT SDN testbed and how it connects to the rest of the national SDN testbed. Plans for the future will be presented. There will also be a general invitation for people or companies that have SDN projects to get involved and work with RMIT and other Universities through the testbed.

The RMIT SDN testbed is now operational and we're moving to collect equipment. What has been a slow process is now moving ahead rapidly.

For those interested we'll also walk through and demonstrate how SDN is being taught in undergraduate and postgraduate courses this semester.

Note: This is an RMIT hosted event advertised for the interest of TelSoc members.

Date and Time

Tue, 26 Jul 2016

17:30 - 19:00 AEST

Location

RMIT Engineering - Building 10, Level 10, Room 22
376 Swanston Street
Melbourne VIC 3000
Australia
