Online Henry Sutton Oration - presented by Ray Owen, CTO of NBN Co

How are nbn users actually using the Internet and what is needed to meet this?

Wednesday, 20th June 2018

Non-members: \$20.00; Financial members: FREE (discount applied when logged in).

[1]

★ 120^[2]

This event is fully booked or has passed.

[3] This is an online live stream of this year's TelSoc HSO to your mobile, tablet or computer . The live stream will be provided using Zoom (see <https://zoom.us/> [4] for technical details relating to your device) and the access details will be distributed by email the day before the event.

Each year TelSoc hosts the **Henry Sutton Oration** in Melbourne to commemorate the distinguished Victorian scientist, engineer and inventor from Ballarat, Henry Sutton - who is scarcely known, but had a string of accomplishments and innovations in many areas.

We are pleased to have as the Orator distinguished innovator and technologist who has given a previous oration, but is now in a new and challenging role - **Ray Owen, CTO of NBN Co**.

Ten years from its inception, **nbn** now has 3.8m active users; this provides NBN Co with an extraordinary ability to see how the Internet is actually being used. The presentation will analyse the statistics, growth expectations for traffic and the **nbn** responses to meet the technology evolution on the multi-technology mix to support this growth.

HENRY SUTTON

[5] **Henry Sutton** has an astounding list of accomplishments in many areas: electricity, lighting, telecommunications, motoring, flight, radio, printing, photography --- a genius in any terms and a good complement to Charles Todd as a legend of early Australian telecommunications.

The online stream for this event will be set-up from 12pm. The formalities will commence from 12:30pm and finish at about 1:30pm.

Note: this is a FREE benefit for TelSoc financial members. If you're not a financial member, why not join now for FY19 and get a full year's benefit including future streamed events, access to the ajTDE [6], CommsWire daily and much more. Depending on your financial and employment situation, you are likely to be able to claim a tax-deduction in this financial year. See our website <https://telsoc.org/membership> [7] for more information.

Date and Time

Wed, 20 Jun 2018
