[3]

The Networked Society Symposium showcases the breadth of research occurring at the University of Melbourne's Networked Society Institute. It provides an opportunity to engage with and debate matters essential to the networked society.

[4] The symposium also provides networking opportunities with researchers, industry, policymakers, and the community. The day includes research presentations, keynote speakers, interactive demonstrations, panel discussions, and plenty of catered breaks in between.

In 2018 the Networked Society Symposium will focus on digital ethics and human-computer interactions. We will be showcasing new research into how **companion robots affect wellbeing**, the **rise of robot lawyers**, **data** and **cybersecurity**. Plus, new developments in **virtual reality rehabilitation**, **smart workwear** to monitor employee health, **interactive education** models and so much more.

This is a University of Melbourne event advertised for the interest of TelSoc members.

Register today as this event will book out.

Date and Time

Fri, 26 Oct 2018

09:00 - 16:30 AEDT

Location

Melbourne School of Design - Basement lvl, Bldg 133
Masson Rd
University of Melbourne VIC 3010
