## Low-Earth-Orbit Satellite Services in Australia

Tuesday, 3rd May 2022

Free registration -- see Eventbrite registration link

[1]

★ 80 [2]

This event is fully booked or has passed.

---

An introduction to what's coming in from new Low-Earth-Orbit (LEO) satellite constellation providers and how they might affect the Australian telecommunications landscape.

Ashley will provide his perspective from within Vocus. There will be the opportunity for audience Q&A.

Please register via Eventbrite using the "Book a Seat" button or the link: <https://www.eventbrite.com.au/e/low-earth-orbit-satellite-services-in-australia-tickets-326503519817> [3]

The event will be held via Zoom, with Zoom joining instructions sent to registered attendees just prior to the event.

Tue, 3 May 2022

12:30 - 13:30 AEST

### Location

Online Event Only  
Melbourne  
Melbourne VIC 3000  
Australia

---

## Presenter(s)

### Ashley Neale

Ashley is the Vocus Development Manager – Space and Satellite, Special Projects where he leads Vocus initiatives in Space and Satellite.

Ashley's career in technology has been focused on developing new markets and spans two decades. He's been at the forefront of Australia's satellite connectivity industry through his work on projects at companies like NewSat, Speedcast, NBN, and now Vocus. Ashley is passionate about enabling new customer experiences through connectivity and advocating for the voice of the customer. At Vocus, he works with Australian and international businesses to support them in building critical telco infrastructure in the APAC region and enabling access to new space and satellite technology.
