[1]

### **Telcos willing to pay more for 5G: Gartner survey**

The telecommunications industry is prepared to pay more for 5G mobile capabilities than they are willing to pay for 4G, according to a newly published global survey.

### **Contention ratios alone 'not enough to judge ISP'**

Contention ratios alone would not be enough for consumers to make a judgement as to which ISP would provide sufficient bandwidth for their needs, an academic claims.

### **Pivotal's customer service delivers record low telco complaints**

Mobile and satellite telco, Pivotal, has recorded the lowest customer complaints in reporting history, according to the latest Complaints in Context from the Comms Alliance and the TIO.

### **Claims that Ethernet switch market decimated by cloud contested**

The ANZ head of a company that sells networking equipment has contested claims made by IDC that the business market for Ethernet switches is being affected by the spread of cloud computing.

### **Teenagers charged over allegedly running huge DDoS operation**

Two Israeli teenagers, who have been alleged to have co-founded and run a company used for launching distributed denial of service attacks, have been arrested and indicted on conspiracy and hacking charges.
